Elevate Your Event with Car Show Pro

Experience the future of automotive event management. Car Show Pro is a comprehensive, cloud-based platform accessible from any standard web browser, designed to streamline your operations and enhance the experience for organizers, judges and participants alike.

By enabling **simultaneous multi-user access**, our system allows administrators to delegate tasks to an unlimited number of staff and judges, dramatically accelerating the pace of your event, while limiting access based on the assigned user role.

Seamless Registration Solutions

- **Flexible Entry Options:** Administrators can control online pre-registration and can always manually enter participants, including 'day of show' registrations.
- **Reduce Wait Times:** Promoting online pre-registration allows participants to sign up weeks or months in advance, significantly decreasing physical lines on event day.
- **Efficient On-Site Logistics:** Quickly process 'day of' registrations and print or email professional Dashcards and receipts immediately (requires laptop, internet, printer and power).

Precision Judging & Customization

- **Tailored Criteria:** Create scorecards with unlimited judging criteria, allowing for different standards across diverse auto groups.
- **Unlimited Classifications:** Define as many auto classifications as necessary and set the number of winners for each specific class.

Car Show Pro

Features Brochure

Modern Scoring Technology

- **Mobile Judging:** Delegated judges can score vehicles instantly via smartphone or tablet (cellular connectivity with a data plan is required).
- **Instant Retrieval:** Judges can scan a QR code on the Dashcard or search by Auto ID to pull up the digital scorecard immediately.
- **Multi-Judge Score Averaging:** Multiple judges can score the same auto, thus producing a more accurate 'averaged' score for each auto.
- **Versatile Formats:** We support Traditional, Freestyle, and Concours judging formats.

People's Choice Voting

Maximize community engagement and ensure results integrity with our automated People's Choice Voting system. By allowing the attending public to vote for one or more autos via a quick QR code scan or ID search, you significantly improve overall vote tallies. Voting is limited to one vote per user for each auto reducing the risk of fraudulent voting by 'ballet stuffing'.

We further safeguard the integrity of your results by implementing location-based restrictions, which limit voting to users situated within a small geographical area of your event. This targeted approach effectively minimizes fraudulent entries and ensures that the "People's Choice" truly reflects the opinions of the attending public.

An optional paper ticket voting option is available as well, to allow those who cannot vote electronically an opportunity to cast ballots.

Data-Driven Insights

Stop calculating results by hand. All show data is **automatically tabulated**, and **winner's lists are populated in real-time**. Gain deep visibility into your event with **15 comprehensive reports** that can be printed or exported to Excel. Key reports include:

- Winner's Lists and Special Awards
- Participant and Income Summaries
- Car Club Participation and Mailing Lists

Sample Dashcards

The following sample Dashcards can be used to preview People’s Choice Voting as well as Event Judging.

People’s Choice Voting:

To participate in Voting, you must have geo-location enabled on your phone and browser. If prompted, you must **Share Your Location** to continue.

- Open your smartphone camera.
- Hover over the QR Code. Click the link that appears on your camera screen (DO NOT TAKE A PICTURE!)
- If prompted, Share Your Location. You will be taken to the Voting page for that auto. Simply cast your vote!

Event Judging

To simulate scoring an auto, you’ll need to log in as a test judge:

- in your browser, navigate to carshowpro.com
- open the main menu (3 horizontal lines in the top left of the page) 
- select Login
- Use one of the test judge logins below

Test Judge Email	Password
test1@carshowpro.com	aa123123
test2@carshowpro.com	aa123123
test3@carshowpro.com	aa123123
test4@carshowpro.com	aa123123

- open the main menu and select Scan QR Code. Allow your camera access, if prompted.
- Hover over the QR Code. The QR Code will be detected automatically and you will be directed to the Score Card page for that auto.
- Complete the scorecard and submit. **Done!**
